A Trip Around the World

Here's a book that describes Web 2.0 tools in-depth, models Web 2.0 tools through classroom examples, explains how to get started with each tool, presents practical unit plans illustrating the use of Web 2.0 in the K-12 content-area curricula, and identifies and describes what tools are most useful to educators for networking, productivity and insight into the technologies. Part 1 of each chapter answers many questions you will have about Web 2.0 and social networking tools: What is the tool? Why use it with students? How are K-12 classrooms using the tool? Can you provide me with specific examples for my science, history, or language arts curriculum? Part 2 describes specific tools and the steps to get started. Part 3 contains a detailed sample unit plan, teacher exercises and a summary following. Screen shots of websites are used to make the advice straightforward and easy to understand. You'll find an entire chapter on special instruction for ESL students with objectives, tools, and K-12 classroom examples. To help you implement Web 2.0 tools beyond the curriculum, there's even a chapter devoted to technology tools specifically designed for teachers and librarians to use for personal productivity, communication, and collaboration. The conclusion offers ideas for integrating Web 2.0 in art, music, and health. Exciting examples of the book's contents include: Collaborating and Communicating with Blogs Creating Multidisciplinary Wikis Google Tools: Enhancing Instruction in the Science Curriculum K-12 Classrooms Join the Social Networking Revolution Using VoiceThread and Video to Improve Language Development Creating Community In addition to the great content you'll find in the book, *Using Web 2.0 and Social Networking Tools in the K-12 Classroom* features a companion Web site that provides the most current curriculum examples from pioneering educators around the world, as well as up-to-date exercises and lessons in subject areas and grade levels.

This publication addresses trends and issues in global education, providing information about what global education is and how to teach it. The publication emphasizes ERIC resources. It offers ERIC Digests about global education and selected items from the ERIC database that exemplify different viewpoints and approaches to global education. It contains a directory of key organizations and World Wide Web sites that provide teacher resources. Designed as a guide for educators who want to include global education across the various subjects of the curriculum, the volume is divided into four parts: (1) "Overview of Global and International Education"; (2) "Institutionalizing Global Education"; (3) "Curriculum, Methods, and Approaches"; and (4) "Appendices." Information about documents in the ERIC database and how to submit documents for the database is appended. (BT)

A New Trip Around the World, Grades K - 5

This comprehensive text's international approach to global education provides teachers with the background and strategy for effecting a pro-active and positive influence on young children. The goals of the book are three-fold: 1) to provide a knowledge base of global educational issues to early childhood professionals, 2) to consider teaching-learning strategies that are inclusive of young children in their multiple array of learning styles, and 3) to focus on the world of childhood in context of today's needs and the challenges of tomorrow. Unique to the market, the text treats global education and multicultural education in the same context for early childhood.

Concepts and Trends in Global Education

School Library Media Activities Monthly

The so-called nation states have created ethnical minorities. Also due to migration, cultural diversity is the reality. The multicultural society is strongly reproduced in the schools all over Europe. Cultural diversity in the classroom is increasingly recognized as a potential which should not be neglected. The educational system has, above all, to provide all children with equal opportunities. Experts from Finland, the UK, Hungary, Spain, Greece, Cyprus, and other European states, mostly responsible for teacher education, have contributed to this volume with critical, but constructive remarks on the classroom reality in their countries. This book is valuable reading for academics and practitioners in educational sciences.

Resources in Education

Turn every field trip into a high-quality learning experience! What youngster isn't excited at the prospect of taking a field trip? Enthusiastic students present teachers with the ideal scenario for creating meaningful out-of-the-classroom encounters and giving students the building blocks to help them become active participants in their own educational process. This resource helps educators take full advantage of off-site educational

opportunities by developing lessons that connect informal learning with content standards. Based on constructivist philosophy and inquiry-based learning, the book provides numerous sample lesson plans and technology tips, and includes:

- Learner-centered activities for language arts, math, science, social studies, and fine art
- Ways to support English Language Learners and special education students
- Guidelines for developing corresponding classroom activities
- Strategies for building partnerships with informal learning sites
- Methods for bringing museum-type activities into the classroom when a trip is not possible

Field trips turn the whole world into a classroom. *Informal Learning and Field Trips* helps enrich students' lives as they explore the world outside the school grounds and gives teachers a prime opportunity to revitalize the learning experience.
